

Cahal, 22 Operations Graduate Accelerated Program

“After leaving my University degree as it wasn’t suited to me, I questioned my career objectives and went for a job in Camden until I figured it out. When I joined the company I started in operations in the glass factory. Going to work with a hard working ethic, my managers noticed my potential and invested in me, offering me a graduate accelerated program. The program has developed my skills in majority of roles in Camden including glass, dispatch, production, delivery, and customer service. The program proposes the opportunity when completed for a Managerial role within Camden. Hard work is recognised in Camden Group and I am fortunate for them allowing me to develop a wide range of working skills, and the potential to grow.”

Find out about other case studies and careers that suit your path at our website.

We are always happy to chat about how we can work together so why not have a relaxed chat with anyone in our Human Resource Department.

If you are interested in a Career, Internship or Student Placement please get in touch.

We have opportunities all over the UK.
